

All the words & promises ever spoken over this congregation are still real and still true. Regardless of circumstances, it's irrelevant.

The Lord says, in this place, in this congregation that that which I apprehended you for years ago is still current in My heart. You are going to do it differently because you are different now, and you've gone through a changing, you've gone through a purging, you've gone through a cleansing, and a purifying. And the Lord says - "You've stayed true and you have passed your tests. So this is your moment in the Sun. This is your moment when the Father is going to call all the witnesses of heaven to come and look down on this place. All the times that God has spoken and God has looked and God has come and He has stood in this place have all been leading up to this time. There is coming over this church a season of several years of incredible, intense celebration where you will come into experiences of heaven. Many of you have already been having dreams about heaven. The Lord says you are coming into intense years of a celebration. A spirit of joy and celebration because the Lord is saying, in that celebration there is a feast set aside in terms of the gifts of the spirit, in terms of dreams, in terms of visions, in terms of anointing, in terms of tasting the power of the age to come. There is a point in the next few years where the Lord will say from heaven "This is my beloved people in whom I am well pleased." You are in this conversion process right now where God is going to commission you from heaven and that isn't to say you have to wait two years for stuff to happen. You are not going to be able to stop God from doing things. You are going to have signs of his presence breaking out all over this community - all around this City.

The Lord is saying - your (football) team may have been relegated but you haven't. You are being promoted. This City is going to be promoted in the Kingdom. There is a promotion coming into this City, into this community and the Lord says He is going to make His mark in this place.

All the words, all the things He's ever said, you need to get them out, you need to blow the dust off you need to write them out - paraphrase them differently. And in those words there are keys to prayer situations you are facing right now. God has already given you permissions for lots of things that you're facing right now. He's already promised you resources for situations you are facing right now and He's saying "Call on Me. Call on Me. Come and stand on that word and ask Me. Ask Me for things. Ask Me for your inheritance, your inheritance - it's in the words that I've given you."

This is the time to go back over what God has said and bring it and lay it on the altar and say "Lord you said ...". You have My permission to approach Me bring them to Me, lay them down in front of me and ask Me - because the answer is YES!!

You know what that means when the Lord says YES to something, it means He's going to have to speed up your development so that you can appropriate those things. That's why I'm saying over the next few years, because you're in this conversion process of becoming the people who can inherit successfully all that God has got to give you. But let me stress again you are not waiting two years for something to happen. You are walking for two years, you are partnering with God and you are participating in outbreaks. It feels like this to me, it feels like the Lord is waiting so much for you to get moving he says YES to the speed of your movement. It feels like this to me - the moment you start to gather yourself and move out, windows in heaven are going to start to open and things will start to come into this community. And you won't be ready for them and you'll waste some of it. Probably a lot of it, but He's not going to care though it's not like there isn't an abundance that you can't get your head around.

As you begin to gather and walk out, as you really start to enjoy the process of being converted from one type of church to another outbreaks of God are going to come. All through the congregation, all through the community and you are not going to be able to control it - not that you want to.

As a leadership you are going to be gloriously out of control and that in itself will be a byword around the nation.

This is your day, this is your time, this is the year of your rising, this is the process of your conversion from one church to another and in two years time there will be a commissioning so profound it will break things open in this community. It's a fast work that God is going to be doing because we need to learn to run. We aren't walking by faith anymore we're running by/with faith.
